

SOLARIA

A NEW WORLD OF 2K. THE FUTURE OF 4K.

Christie Solaria™ Series – CP2210, CP2220, CP2230, CP4220, CP4230

With no margin for error, the show must always go on. Christie delivers over 80 years of experience, knowledge and value to your cinema business. We consistently offer you the best. All of our cinema solutions feature Academy Award winning DLP Cinema® technology. We pride ourselves on being the first with a 2K solution, the first to offer a 4K ready solution, and the first to introduce Texas Instruments' advanced Series 2 DLP Cinema® technology. This technology is designed to be compliant with the Digital Cinema Initiatives (DCI) specification. We pay special attention to what the exhibition community needs to deliver the best cinematic experience to their audiences. This attention to detail has propelled us to be the definitive leader in digital cinema today with more installations than anyone else in the industry.

Key features and benefits of the Christie Solaria Series:

- ▶ Series 2 DLP Cinema®
- ▶ DCI compliant models
- ▶ 2K models easily upgradeable to 4K¹
- ▶ 3D ready
- ▶ Lowest cost of ownership
- ▶ 4K ready²

¹ The Christie CP2220 and CP2230 are upgradeable to 4K

² The Christie CP4220 and CP4230 deliver the Christie 4K+4 advantage

Christie Solaria™ Series

Optimize your digital cinema system with the right Christie combination

▲ Easily automate digital cinema operations with the Christie ACT

▲ Christie Xenolite® lamps deliver an extraordinary 99.999% in-theater uptime

Designed to be the brightest, resulting in the lowest cost of ownership

The Christie Solaria™ Series of digital cinema projectors, powered by CDXL Xenolite® lamps, set new levels of performance for digital cinema technology. Choices in size, brightness, power levels, and accessories offer exhibitors flexibility, ease of use, and the lowest cost of operation for a variety of screen sizes while future-proofing your investment.

Christie CP2210

The Christie CP2210 is the most compact digital cinema projector in the world and the projector of choice for exhibitors where booth space is at a premium.

Christie CP2220

Designed for ease of use and maximum reliability, the Christie CP2220 is an all-in-one digital cinema projection solution. Showcasing speed and performance, the CP2220 is the workhorse of the industry with the lowest operating costs in its class.

Christie CP2230

The Christie CP2230 is the brightest digital cinema projector available and is ideally suited for large screen theaters, post-production houses, multi-media theatrical productions and the most demanding 3D installations. With a unique optics design and superior image processing, the CP2230 delivers crisp, clean images with perfect color saturation and spectacular video.

Christie CP4220 and CP4230

The newest additions to the Christie Solaria Series provide the only superior 4K solution built with the Christie 4K+4 advantage that delivers brilliant 3D images, the highest level of content security and the easiest adaptability, operation and maintenance.

Accessories for easy integration into any environment

Christie's full range of digital cinema accessories includes the Christie Cine-IPM 2K for alternative content, the Christie Multimedia Adapter for economical audio and video scaling, a full suite of lenses, a full lineup of lamps and the Christie ACT.

The Christie ACT

The most popular dedicated digital cinema automation device in the world, the Christie ACT allows you to adjust light dimmers, masking motors, audio levels, projectors or servers. You can orchestrate your control from any web capable, networked device with the Christie ACT. With its user-friendly GUI, adaptability and programmability, you can easily customize and manage tasks and events to meet the unique needs of your theater complex.

Cinema Multimedia Adapter

The Christie Cinema Multimedia Adapter lets you easily take control and simplify audio video integration with one device. Manage a unique variety of audio conversion and video scaling tasks and maximize your current AV set-up with a fully HDCP compliant, Cinema Multimedia Adapter. Simply connect your analog or digital AV sources to it and brilliantly scale your image to your digital cinema projector or DVI/HDMI display while providing the appropriate audio to your cinema processor.
